CHARLES MIX COUNTY, SOUTH DAKOTA.

Lake Andes

January, 7, 1920.

The board met as per adjournment with all members present.

Motion made by Braggell and seconded by Mr. Bride that Mr. Ed. Astin be chairman of the Board of Commissioners of Charles Mix County for the year nineteen hundred and twenty.

Motion carried

Motion made and seconded, that the Board, County Auditor and Clerk of Court proceed to file the jury list for 1920, as per order of the judges of the Circuit court.

Motion carried

Motion made by Braggell and seconded by Mr. Bride that the Court room is to be used for the court purposes only.

The board of Commissioners believe it to the interest of the tax payer that the rooms of the Court house should not be used for other purposes than what they were originally designated for, and therefore authorize the janitor to refuse anyone admittance who unlawfully occupies the premises.

The members of the board proceeded with the annual settlement of checking the Auditors and Treasurers Cash books and vouchers.

There being no further business ^{no} transactions the board adjourned to meet again on the following day.

Upon motion the commission decided to buy four tractors from the Avery Co. of La. La. A contract was signed for the Lake and. Office
Price \$ 11424.⁰⁰ (By order. FM)

The following petition was filed in the office of the County Auditor, on August 3rd 1920.

TO THE HONORABLE BOARD OF COUNTY COMMISSIONERS OF CHARLES MIX COUNTY, SOUTH DAKOTA.

We the undersigned owners of agricultural lands located in sections 4,9,10, and 3, in Township 98, Range 67, Charles Mix County, South Dakota, the same being the lands affected by and directly involved in the drainage system hereinafter proposed, do hereby respectfully petition your Honorable Board to cause a survey to be made of the proposed drainage ditch hereinafter described, and due investigation made with reference thereto, to the end that it may be determined whether or not said ditch is necessary and beneficial to said agricultural lands, and whether or not the same should be established as provided by law.

Said petitioners respectively represent and state that the said proposed ditch and route thereof is as follows;

That the initial point of said proposed drainage ditch is at a point about fifteen rods North and Thirty rods west of the Southeast Corner of Section Four, in Township 98, Range 67, thence running in a southeasterly course over the Northeast Quarter of Section 9, in Township 98, Range 67, thence east across the Northwest Quarter of Section 10, in said Township and Range, then North and East across a portion of the Southwest Quarter of Section 3, in said Township and Range, then in a northeasterly direction across the South East Quarter of said Section 3, until it empties in a small lake in said Section 3, which said lake is drained by Pease Creek a natural water course, which carried away all surplus waters draining into said lake.

Said petitioners further allege that the agricultural lands to be affected by said drainage ditch are comprised within the territory covered by said sections 4,9,10, and 3, the same being agricultural lands, and

Said petitioners further allege that there is a large number of swamps or low places upon said sections in which surface water accumulates in times of excessive rains, and in the spring time from melting snow, that there is no drainage system to carry off said water, and as a result, the same remains upon the agricultural lands located within said sections for long periods of time, thereby injuring the growing crops, and that it is therefore necessary that a drainage system be established to drain off said surface water.

Your petitioners verily believe there is sufficient fall to carry off said surface water and render said low lands productive if said drainage ditch be established as herein prayed for,

Wherefore, your petitioners pray; that your Honorable Board act upon this petition and cause a proper survey and investigation to be made, and take such other steps in relation thereto as provided by Article 1, of Chapter of the Political Code of the State of South Dakota, relating to drainage, and that if it be determined that said drainage ditch is necessary and practical that the same be established as provided by law.

To the Auditor of Charles Mix County, south Dakota.

Upon examination of the Drainage Petition filed by T.S. Braithwait and others, in your office on the day of (no date given) 19-- , it is my judgment that the proposed ditch is a minor one which will not need my attention.

In case, however, the ditch is established this office should be furnished with the name of the ditch and with plans and profiles; together with a copy of the Surveyors reports, and upon the completion thereof a statement showing its costs.

In case any material increase in the length of the ditch should be contemplated beyond that described in the petition, this office should be promptly furnished with the data in reference thereto in sufficient time to allow a due consideration thereof before its establishment.

ENGINEERS REPORT,

BOVEE TILE DRAINZ.

April 2nd. 1921,.

To the Honorable Board of County Commissioners,
Charles Mix County, South Dakota,

Gentlemen :

I beg to report that, at your directions, I have made a survey of the drainage project to be known as " BOVEE TILE DRAIN" , the location of said proposed tile drain being across parts of sections 2, 3, 4, 9, 10 and 11, Township 98, Range 67, including the Town of Bovee, in section 9, the exact location of said drain being as shown on the accompanying plat.

I find, that in order to drain the lands petitioned for in the most satisfactory manner, it is advisable to extend said proposed drain below the point indicated for an outlet by said petitioners, to take in and drain the large lake situated on the East Half of Section 3, and part of the
