ROAD CONSTRUCTION POLICY CHANGE-WHEREAS, each Commissioner District previously had it own equipment for road construction purposes, which was used for road construction within the district; Whereas, the county has recently purchased rubber-tired road construction equipment, because this type of equipment is more efficient; Whereas, in order to receive the maximum benefits from this equipment it is now necessary for the three Commissioner Districts to operate and construct roads, together rather than separately, thus changing the operational policy; However, in order to assure an equitable distribution of road construction between the three districts, the amount of road construction to be done in each district will be determined by and be proportionate to the relative tax valuation of the three districts. However, this policy in no way means that road construction shall be done in equal amounts in the three districts each year. The Construction done shall be equalized over a perion of several years rather than split evenly on any given year. THEREFORE, be it resolved that the above mentioned road construction policy shall be the policy carried out in Charles Mix County, State of South Dakota. Adoption of above policy moved by Pranger, seconded by Thaler, all members voted AYE, motion carried.
